## story

The film is a musical journey with Enzo Gragnaniello through the memory of the magic, mythological and historical Neapolitan underworld, and through the city above, with its monuments and most lively areas, all speckled by Gragnaniello's realistic and imaginary performances whom together with the Sud Express mixes own musical scenes with some of other Neapolitan artists all interweaved with archives images of Naples after the war and in the 70s.

A light "musicarello" of the past and present time evocating musical and visual emotions with the aim of giving the audience a glimpse on the local beauty and vitality too often not shown by the press and buried by images of human and territorial decline.

## director's notes:

The aim is to emphasize the "other" Naples, the magic and mythological part of the city that has survived among the centuries with a musical guide such as Gragnaniello, the hot – tempered performer, that has interpreted the different souls of our roots: the lunar, the solar and the folk one. Meeting artists and discovering places brings to light again the best part of our musical and iconographic tradition, unexplainably ignored in recent works that have musically documented our city.

## produzioni

Figli del Bronx is a production company that carries out projects in the cinema, theater and music field. It started working in 2003 as a cultural association, and since the beginning it sets itself as a tool for the representation and communication of social constraint in the so called "high-risk areas" of metropolitan realities.

Setting off from the assumption that artistic expression is the mean by which distant sectors of society can interact with each other, Figli del Bronx has pursued with tenacity the fulfillment of several projects in the suburban area of northern Naples and in the whole city, carrying the work of directors, authors and actors in unusual places like correctional institutions, organizations for drop-out minors, suburban schools, public and private institutions for the treatment of drug addictions.

Since 2001 to 2003 F.D.B. works with the actor and writer Peppe Lanzetta, through the player's company I ragazzi del Bronx;

since 2003 to 2006 it collaborates with the company I Liberanti, formed by convicts and former convicts of the prison of Lauro in Nola;

since 2004 to 2007 sets up the film society (cineforum) Filmando Nisida, supported by Social Affairs office of Naples City Council, held at the reformatory of Nisida. Daniele Sepe, Marcello Colasurdo, Antonio Capuano, Enrico Lo Verso, Giuseppe Montesano, Donatella Finocchiaro, CarloLuglio and Vittorio De Seta.
